About us

At Arkad, we specialize in creating beautiful marble and stone tables that blend ancient craftsmanship with modern design. We focus on precision in production and the use of the highest quality materials to ensure that each piece is not just a table, but a unique work of art.

We draw inspiration from the rich history of the Persian Empire, especially the remarkable stonework of the Achaemenid dynasty. This ancient influence is reflected in our designs, where the grandeur of history meets today's modern aesthetics. Just as the ancient Persians used stone to create timeless masterpieces, we bring that same attention to detail and artistry into our contemporary creations.

Our diverse collection offers a wide range of colors, styles, and finishes, ensuring that every customer finds the perfect piece to suit their taste. From the dramatic elegance of black marble to the purity of white marble and the warmth of travertine, each piece adds a touch of luxury and uniqueness to your space.

At Arkad, we believe in combining luxury and unity in every design detail. By blending the best of ancient Persian artistry with modern innovation, we create pieces that elevate any space and reflect the timeless beauty of stone.

Materials

What types of stones do we use for manufacturing?

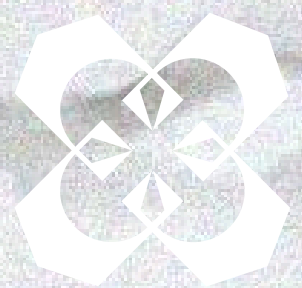

Black Marble

Black Marble Beauty in Darkness Black marble, with its natural white or golden veins, is a symbol of power and sophistication that adds a unique touch to modern and luxurious spaces. Its distinctive patterns make it an excellent choice for statement pieces like tables. The polished and glossy surface enhances its refined appeal, making it ideal for modern, minimalistic, or classic designs.

White Marble

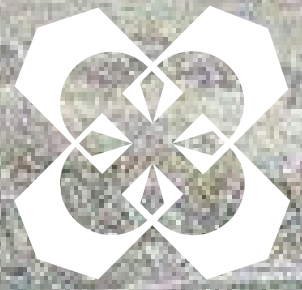

White Marble A Symbol of Purity and Grace White marble, with its bright surface and gray or golden veins, combines natural beauty with timeless simplicity. This stone's clean and smooth appearance brings a sense of calm and freshness to any space. The unique natural veining in each piece turns it into a work of art, making it perfect for bright and minimal interiors. Its compatibility with materials like metal and wood increases its versatility in design.

Cream Travertine

Cream Travertine Natural Warmth in Interior Design Cream travertine, with its soft colors and warm texture, creates a cozy and calming atmosphere in interiors. Its shades, ranging from light cream to beige, make it one of the most popular choices for stone tables. The soft texture, along with its natural pores that can be filled and polished, adds a touch of natural and classic charm, making it perfect for traditional and inviting spaces.

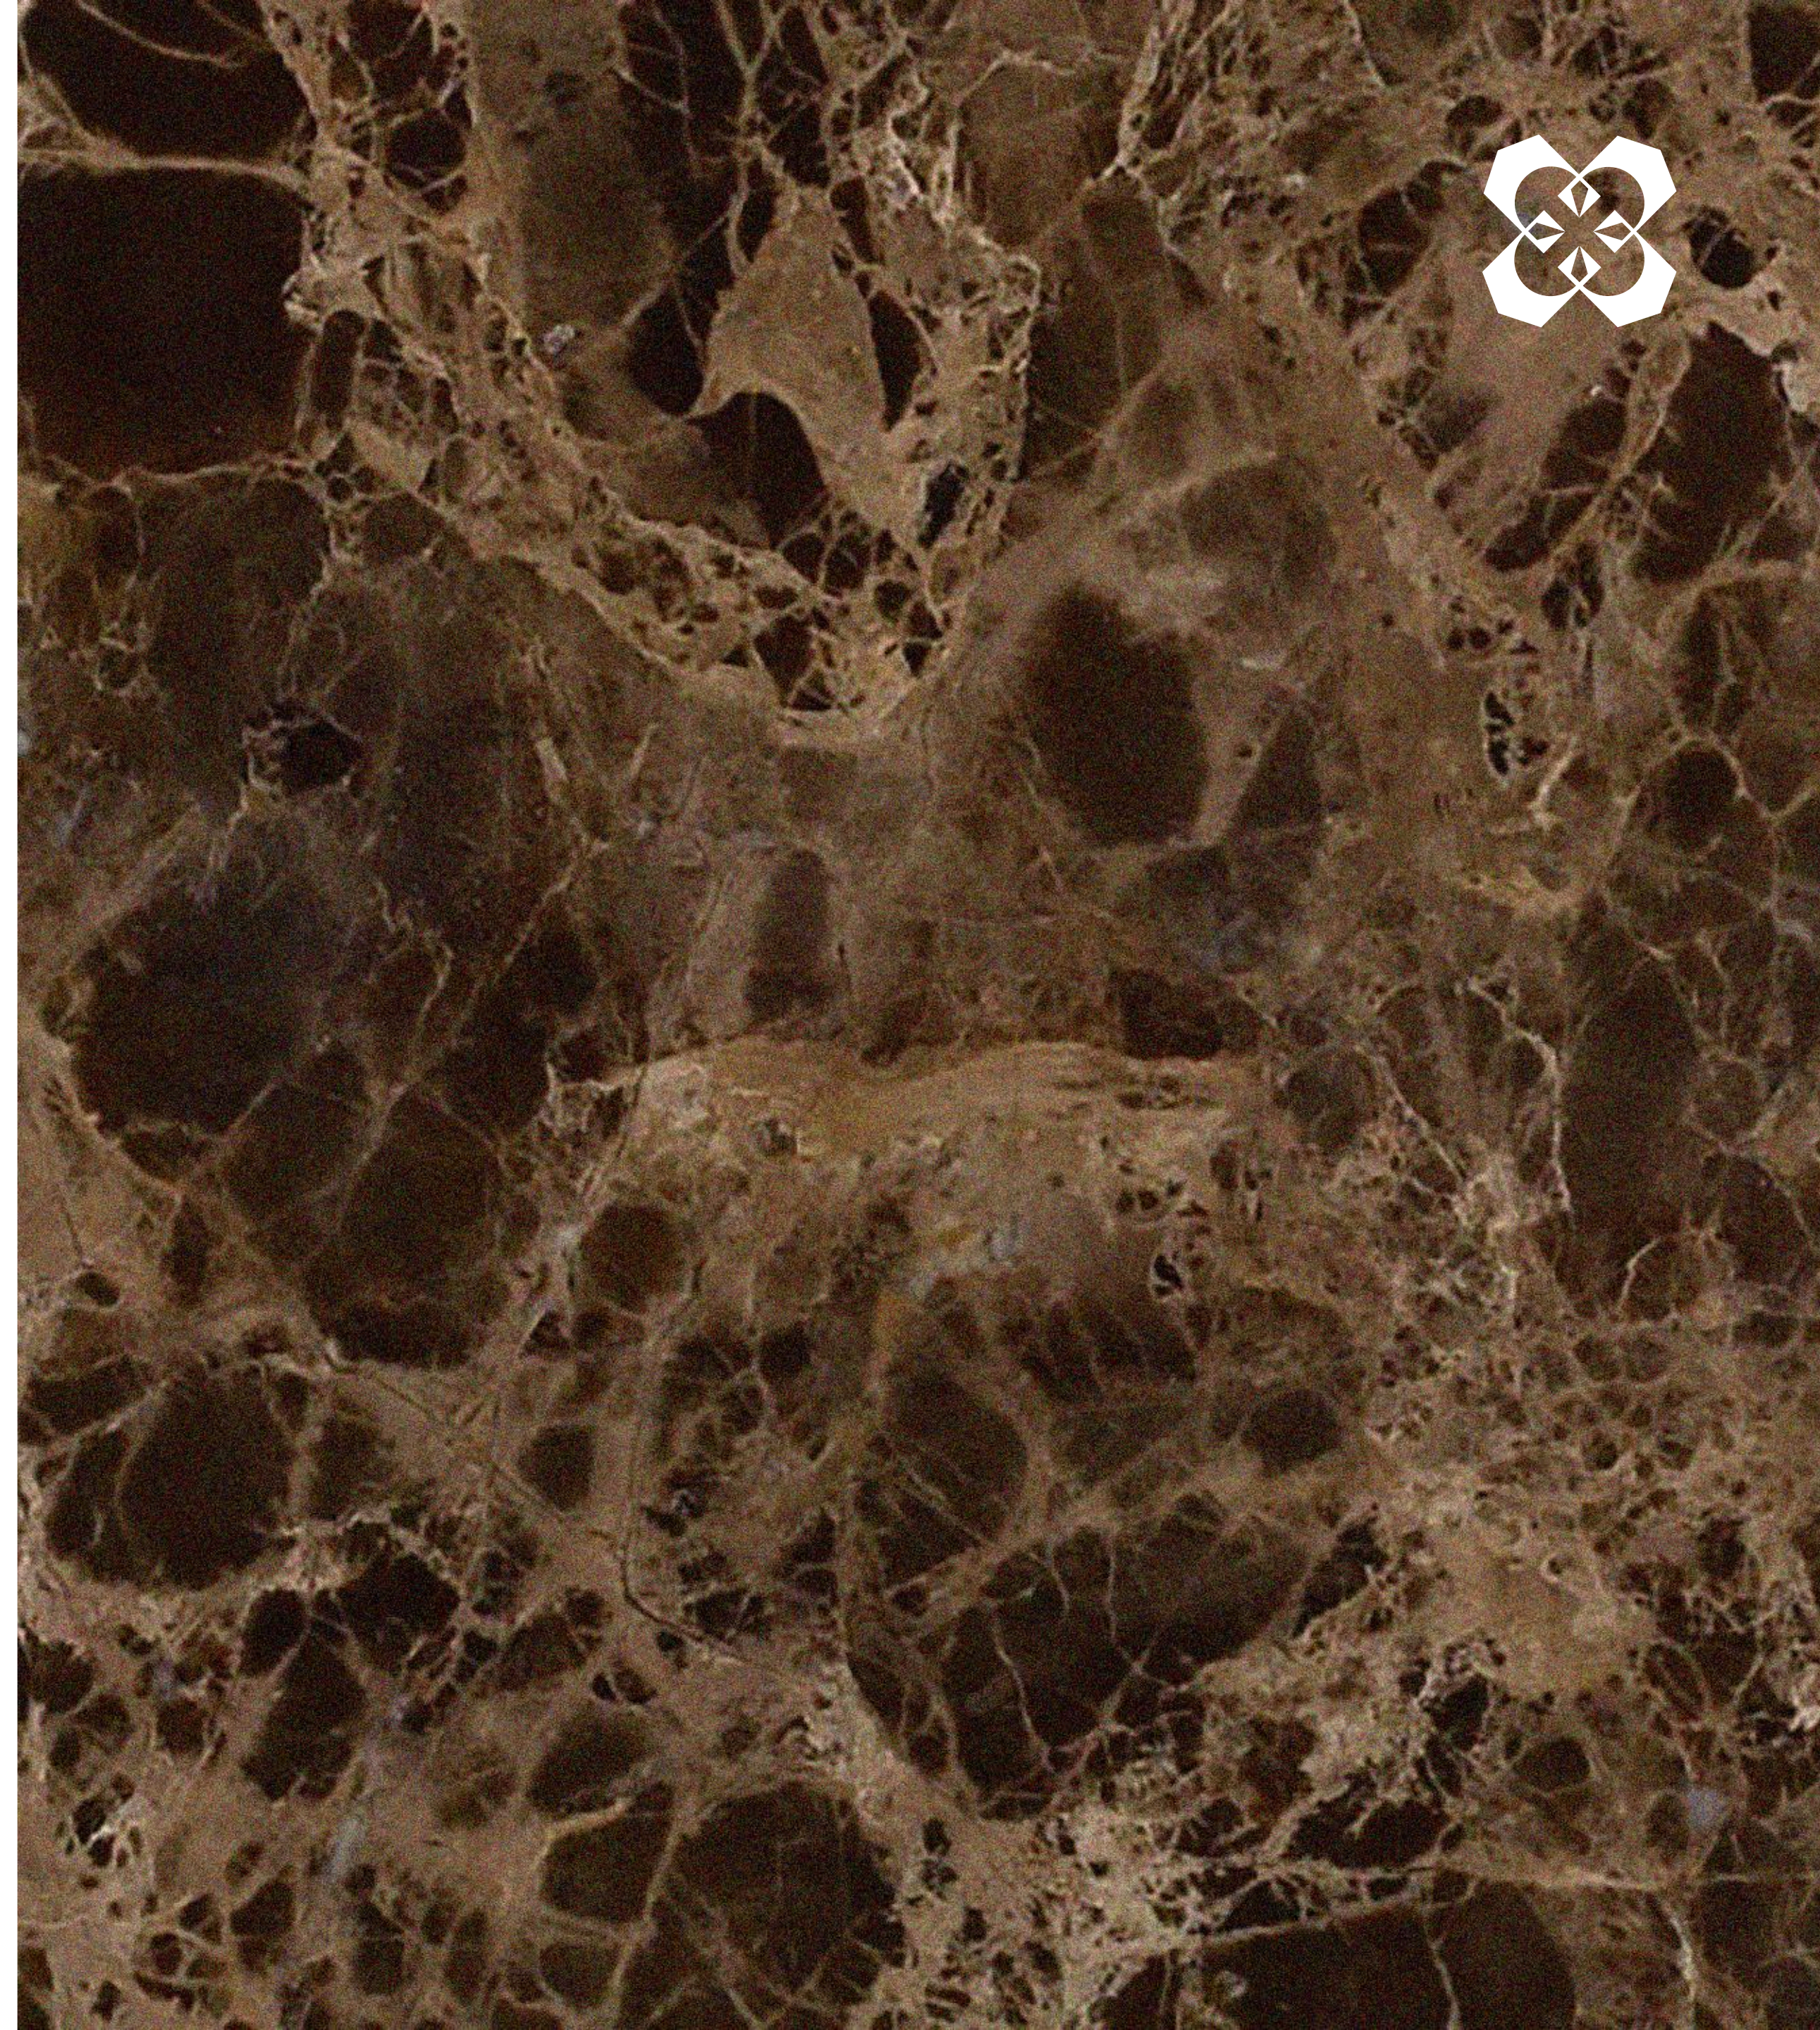

Silver Travertine

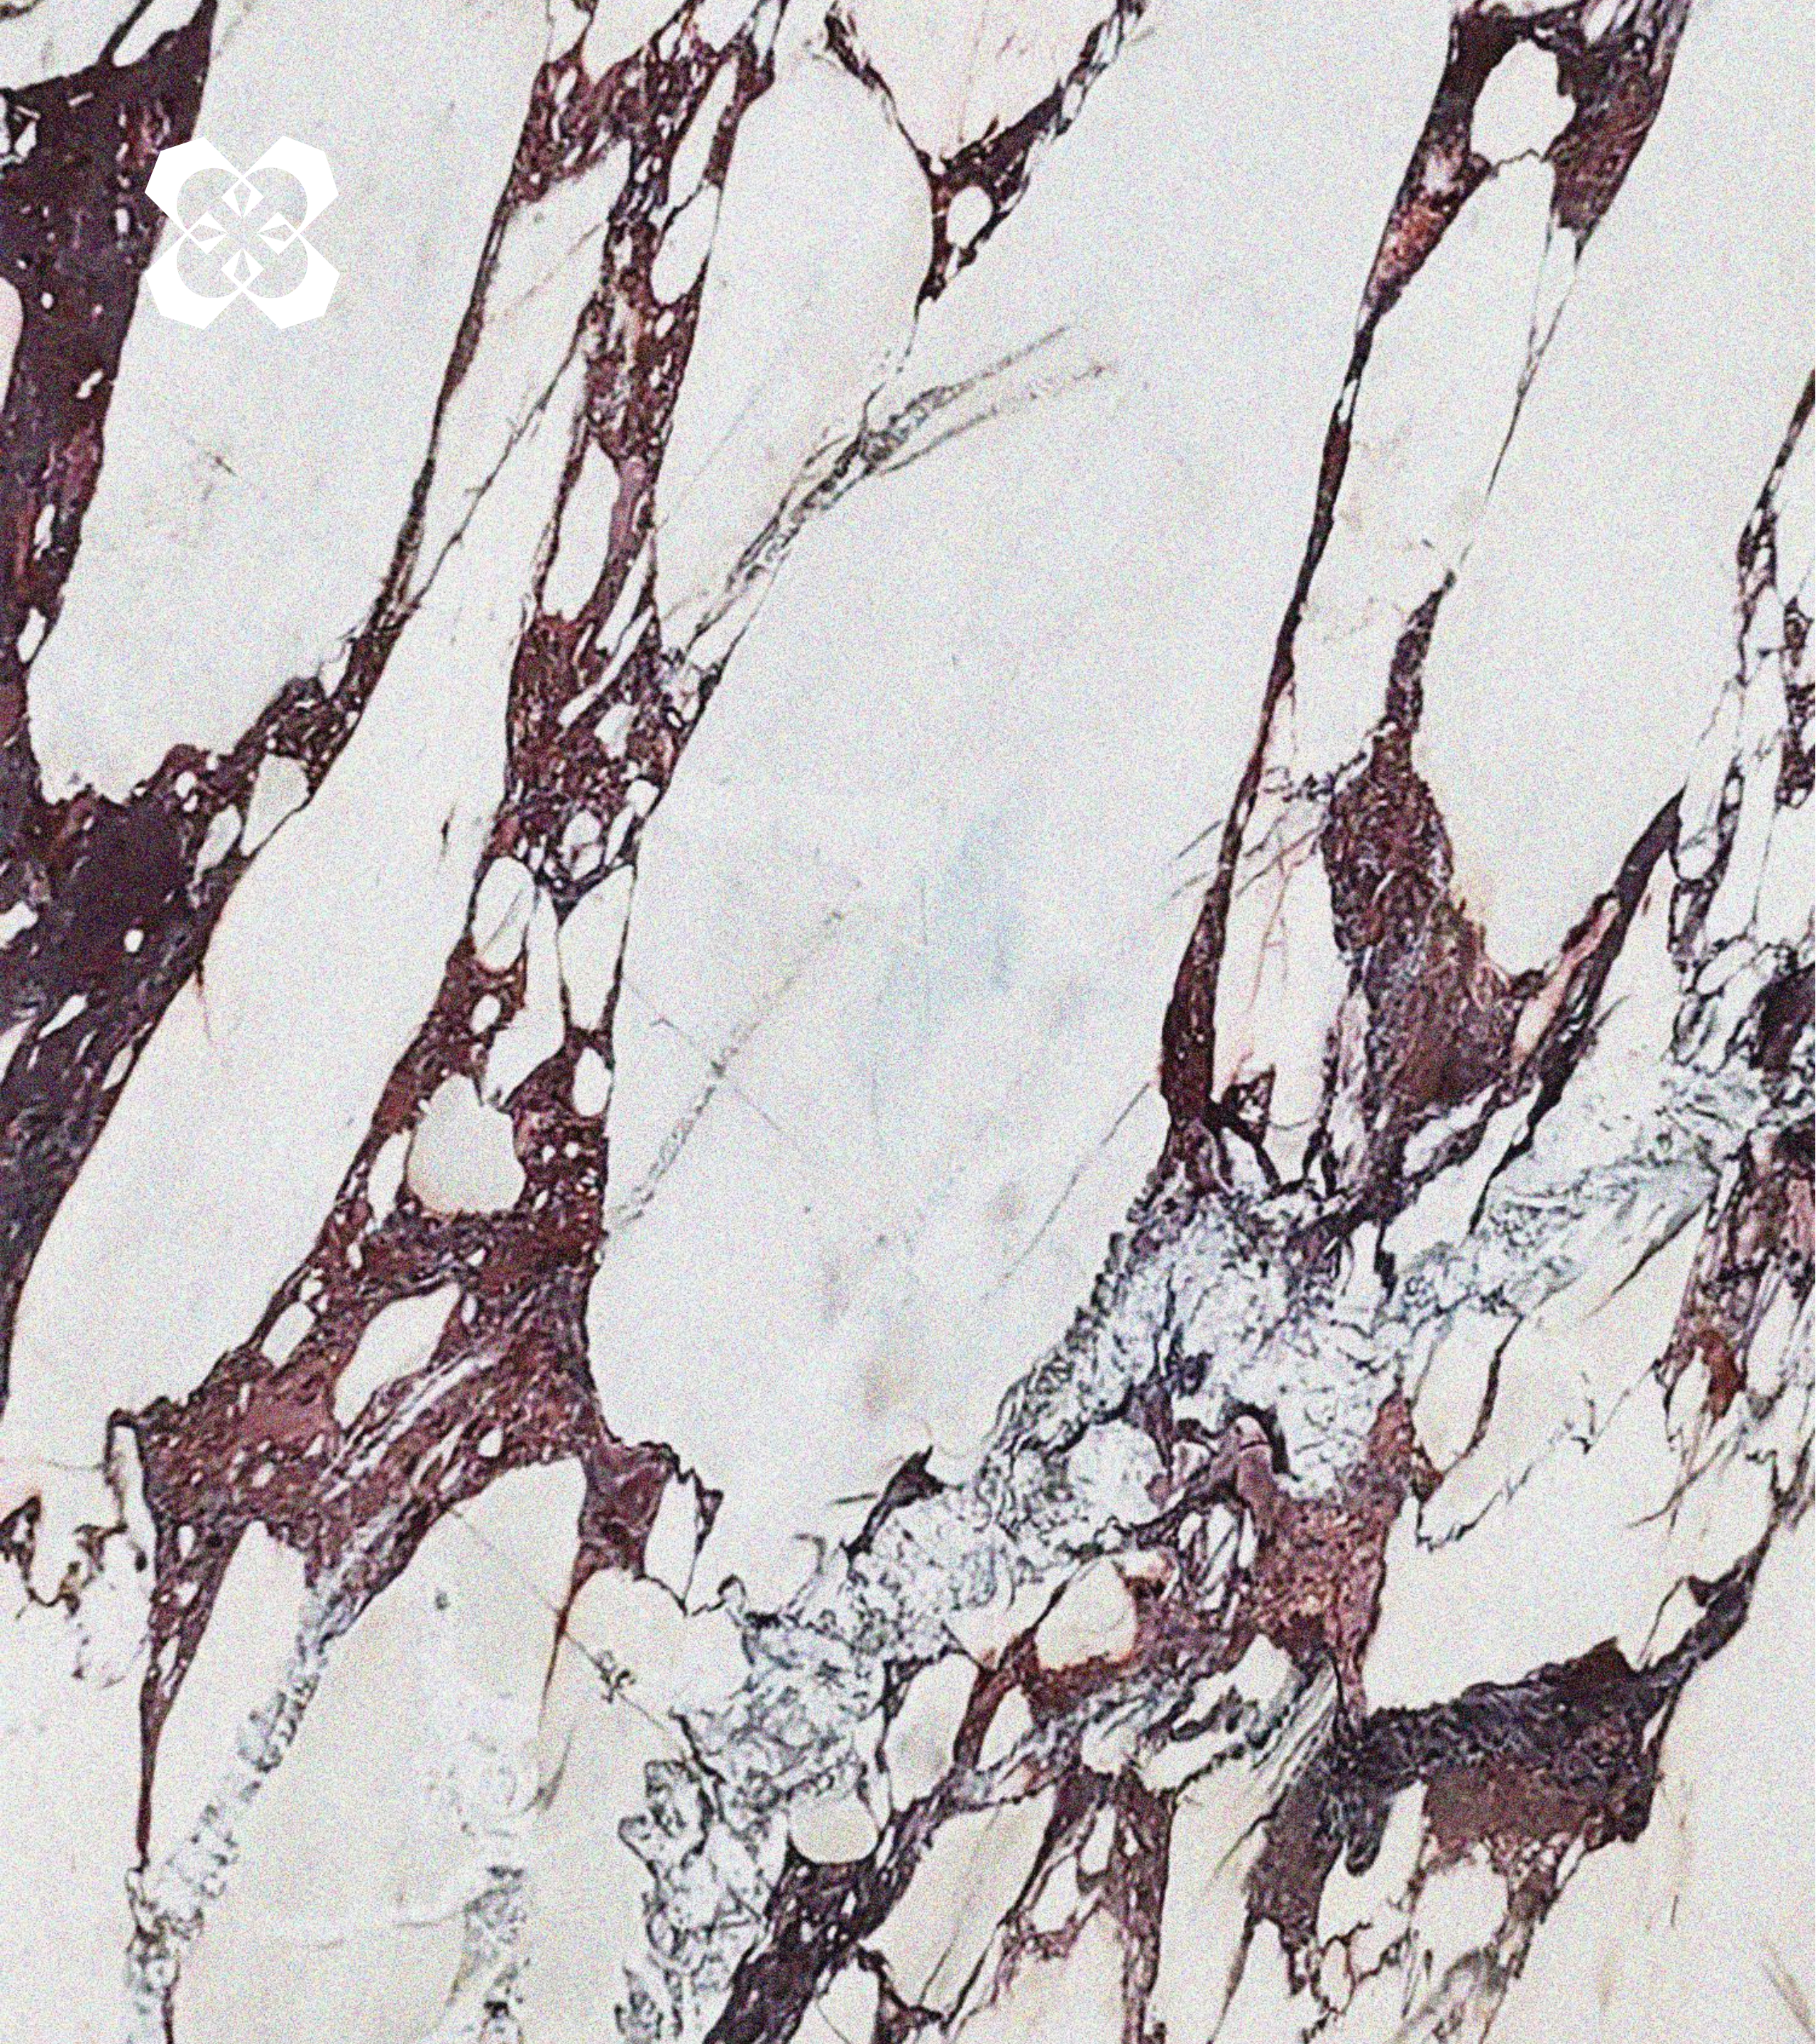

Silver Travertine A Blend of Modernity and Nature Silver travertine, with its gray tones and silver highlights, adds a sleek and modern look to interior designs. Its natural texture provides a sense of coolness and sophistication, making it an ideal choice for tables in contemporary and industrial settings. The combination of dark and light gray tones creates a striking contrast that brings depth and character to any design.

Brown Emperador

Brown Emperador Marble Luxurious Warmth and Sophistication
Brown Emperador marble, with its dark background and golden or cream veins, adds warmth and depth to any space. Known for its rich brown tones, this stone provides a formal and luxurious feel. Its polished and glossy finish showcases elegance and complexity, making it perfect for tables in classic and formal interiors.

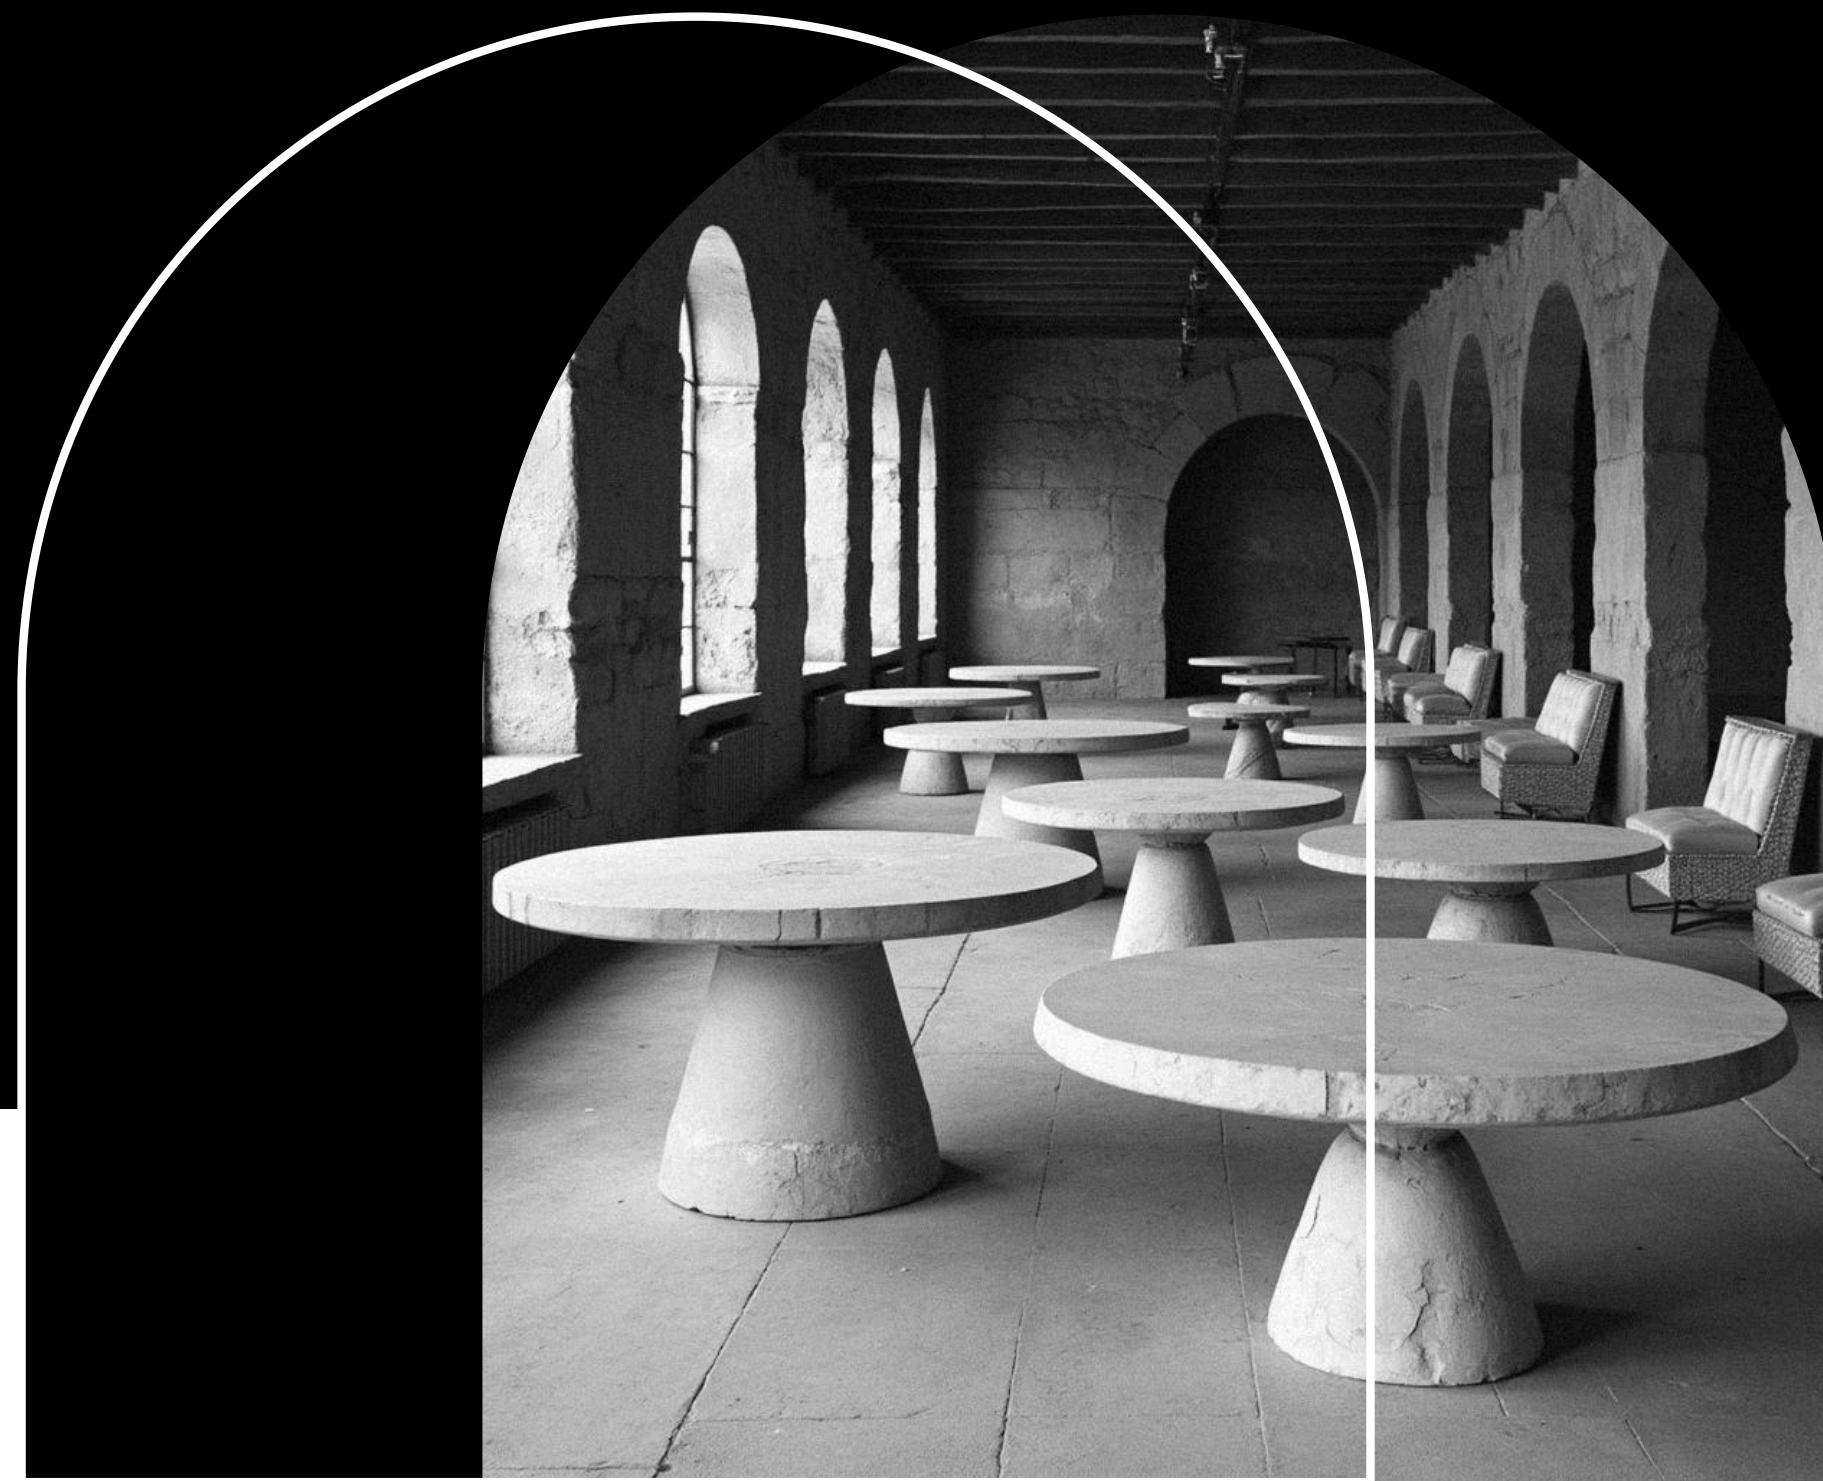

Violet Marble

Violet marble is a type of marble with a mix of purple, white, and sometimes gold or gray veins. It has a unique and luxurious look, making it popular for interior design, stone tables, countertops, and wall coverings. This marble is found in countries like Turkey, Italy, and Iran, and its pattern and quality vary depending on where it is mined.
